

Dynamic RSI

Trade entries:

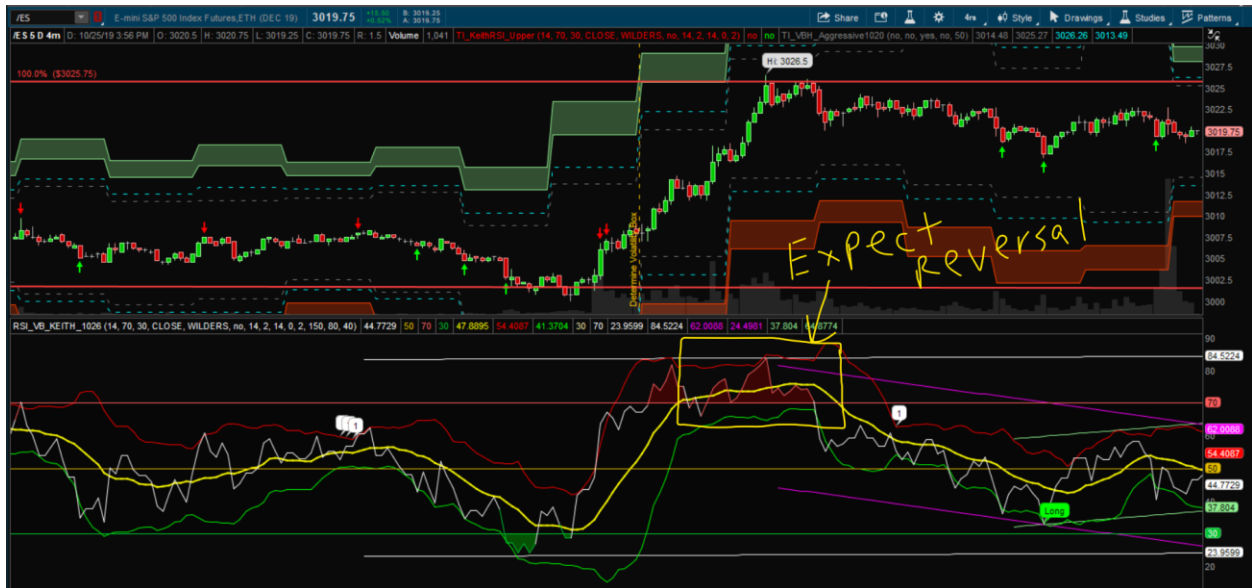

1: Look for a break of trend line.

2: Look for Yellow Average line to cross the 50. Exit trade when RSI crosses the Avg line.

3: Look for when RSI Average line is in Overbought/Oversold territory. Expect to see a reversal.

4: Look for when RSI breaks through the Bollinger Bands.

5: Look for when RSI touches TWO trend lines. Major support/resistance level. Exit when RSI touches BB, or when it crossed below the Avg line.
